## This Hotel Has an Emergency Champagne Phone, so You Can Get Bubbly Whenever You Wish

A historic Texas hotel installed an old-school rotary phone in every room for guests to summon Veuve Clicquot.

One hotel in Fort Worth, [Texas](#), is celebrating its first birthday with plenty of bubbly. And it wants to ensure all its guests can get a glass whenever they wish.

The [Kimpton Harper](#) kicked off its anniversary celebrations in June with exclusive offers galore, but its greatest gift to guests came in July when it announced its partnership with Veuve Clicquot to help ensure everyone could get their hands on a glass of [Champagne](#) at the touch of a button.

According to a spokesperson for the hotel, visitors can enjoy Champagne delivery straight to their room by picking up the newly installed Champagne hotline. All guests have to do is pick up the old-school rotary

phone, ask for a bottle, and have it delivered ASAP. The Champagne comes in the signature yellow label glassware that Veuve Clicquot is known and loved for, and, as a bonus, guests can bring the glasses home with them as a souvenir.

If you can't make it to Fort Worth in the next few weeks for the hotel's anniversary, worry not. The Champagne button will stay as a permanent amenity and feature different Champagne partners throughout the year, meaning you can visit over and over again and almost always get a new glass.
